### STOP THE WAR CRIMES NOW

The Mediterranean No Nuclear Neighborhood (MN3) Network denounces strongly the barbaric, disproportional attack of the Israeli Armed Forces against the entire population of the Gaza Strip. No retaliation to Hamas actions justifies such bloodshed.

We are shocked with the inhuman cruelty of the offensive and the massive, indiscriminate slaughter of civilians, women and children, attacks against schools, mosques, ambulances and similar "targets". Such actions constitute war crimes.

We call the Government of Israel to Stop the war immediately, Stop the siege and blockade and open all the gates to Gaza. This is the immediate actions which are essential to start a dialogue for peace.

We denounce the hypocritical, reluctant "interest" of the world powers which have a major responsibility for keeping the problem unsolved. We alarm all the sides that a major explosion is simmering in the flammable area of the Middle East with unpredictable consequences.

We support the citizens of Israel who have repeatedly manifested in their own country against this human disaster in an effort to stop the warfare.

We are convinced that the Palestinian – Israeli conflict is a political problem and can be solved only through political means on the base of the UN resolutions.

We call the UN, the Arab League, all the local and international organizations but above all the democratic people of all the countries and particularly those of our region to take initiative and press towards a stable and permanent peace for Palestinian, Israelis and all people of the Middle East and East Mediterranean.
