CRIMINAL POLICY by ISRAEL URGE TOWARDS GOVERNMENTS TO CANCEL NUCLEAR PLANS

The Mediterranean No Nuclear Neighbourhood – MN3 Network full heartedly condemns the criminal actions of Israeli Forces during the piratical assault to the ship convoy that transferred humanitarian aid to the blocked Gaza Strip. The fact alone, that the assault, which came with a cost of more than 15 lives, took place in International Waters, 80 miles off the Israeli shore, violating any providence of International Law, is enough to make International Community to realize that Israel's rogue policy should be stopped. This policy has condemned a people to no homeland for over 60 years, despite the UN resolutions, and has transformed the region to a minefield with direct implications to Development, Peace and Life.

These criminal actions prove with the most unexpected and dramatic way that the Mediterranean and the Middle East should be transformed to a Zone of Peace, Free of Weapons of Mass Destruction, the common vision and hope of all the peoples in the region. For this to come true, the International Community should take measures towards the nuclear disarmament of Israel – the only country with a nuclear arsenal – and consequently lead to the abandonment of WMD programs and related aspirations by all countries of the region.

The agreement between Turkey and Russia, some days ago, for the construction of 4 nuclear reactors at the south of Turkey is a direct violation of that common dream, while it will upset the geopolitical and military balances towards a new arm race. The solution does not lie to the creation of new nuclear states but to disarmament of the sole nuclear state in the Region, Israel.
